# LIORUS <br> <br> A Watch You Can Trust 

 <br> <br> A Watch You Can Trust}

## INSTRUCTION MANUAL FOR WATCH CALIBRE <br> Z010

## 1. WARNING

## THIS PRODUCT CONTAINS A BUTTON BATTERY

If swallowed or placed inside any part of the body, the battery can cause severe or fatal injuries within 2 hours or less.
Button batteries are hazardous whether new or used. Keep batteries out of reach of children.
If you think the battery may have been swallowed or placed inside any part of the body, seek immediate medical attention. Contact the Australian Poisons Information Centre immediately on 131126 (New Zealand 0800764766 ) for 24 / 7 fast, expert advice.

## CLORUS

## CHARACTERISTICS

1. Time/calendar display: Hour, minute, second, month, date and day of the week
2. Time indication: 12 -hour display format with PM indicator and 24-hour display format are available.
3. Stopwatch: The stopwatch can measure up to 23 hours 59 minutes and 59 seconds in $1 / 100$-second increments. Lap time measurement is available. Up to 15 lap times can be stored in memory.
Memory recall function: Data obtained in the Stopwatch mode can be recalled after measurement.
4. Countdown timer: The countdown timer can be set up to 23 hours 59 minutes and 59 seconds.
5. Daily alarm: The daily alarm can be set to sound at the designated time on a 24 -hour basis. Three individual daily alarms can be set. Single-time alarm: The Single-time alarm sounds only once at a designated time and it is disengaged automatically. Five individual single-time alarms can be set.
6. Second Time Zone: Time in a different time zone can be displayed.
7. Chime: The chime can be set to sound every hour on the hour with a single beep.
8. Illuminating light: The built-in electroluminescent (EL) light evenly illuminates the display for easy viewing in darkness.

## ■BUTTONS AND DISPLAYS

(*) The display shows "CCS" (Santiago), but currently Santiago is UTC-3.
■ HOW TO USE EL BACKLIGHT
In any mode press Button A to illuminate the display for about 4 seconds.

## Note:

1. The backlight of the watch employs an electro-luminescent (EL) light, which tends to lose illuminating power after very long use.
2. The illumination provided by backlight may be hard to see when viewed under direct sunlight.

Note: The alarm can be set only in one time zone.

## Engagement/disengagement of daily alarm

 With each press of Button B in the DAiLY ALARM mode, the alarm can be alternately engaged or disengaged. The ALARM signal appears or disappears on the display accordingly.
## How to stop the alarm while sounding

The alarm sounds for 10 seconds at the designated time. To stop it manually while sounding, press any Button.

## ■ HOW TO USE SINGLE-TIME ALARM

Press Button D five times to go to the SINGLE-TIME ALARM mode. The SINGLE-TIME ALARM mode indicator appears on the display.

1. Press Button A for 2 seconds to change the display to the SINGLE-TIME ALARM SETTING mode. The minute digits start flashing.
2. Press Button B or C to set the minute digits. One digit (flashing) is increased or decreased with each press of Button B or C, respectively. To move the digits quickly, keep the Button pressed.
3. Press Button D to confirm the minute setting and move on to the hour setting.
One digit (flashing) is increased or decreased with each press of Button B or C, respectively. To move the digits quickly, keep the Button pressed.
4. Press Button D to confirm the hour setting and move on to the year setting. The year digits start flashing.
5. One digit (flashing) is increased or decreased with each press of Button B or C, respectively. To move the digits quickly, keep the Button pressed.
6. Press Button D to confirm the year setting and move on to the month setting. The month digits start flashing.
7. One digit (flashing) is increased or decreased with each press of Button B or C, respectively. To move the digits quickly, keep the Button pressed.
8. Press Button $D$ to confirm the month setting and move on to the date setting. The date digits start flashing.
9. One digit (flashing) is increased or decreased with each press of Button B or C, respectively. To move the digits quickly, keep the Button pressed.
10. Press Button A to complete the single time alarm setting.

11. Press Button D to return to the TIME/CALENDAR mode.

Note: The alarm can be set only in one time zone.

## Engagement/disengagement of single-time

 alarmWith each press of Button $B$ in the SINGLE-TIM ALARM mode, the alarm can be alternately engaged or disengaged. The ALARM signal appears or disappears on the display accordingly.

## BATTERY CHANGE

The miniature battery CR2032 which powers your watch should last approximately 4 years. However, because it is inserted at the factory, the actual life of the battery once in your possession may be less than 4 years.
Be sure to replace the battery to prevent any possible malfunction as soon as it runs down. To replace the battery we recommend taking the watch to a local watch repair shop.
Note: If the alarm is used for more than 20 seconds a day and/or the illuminating light for more than 8 seconds a day, the battery life may be less than the specified period.

## - CARE OF YOUR LORUS WATCH

This watch contains precise electronic components. Never attempt to open the case or remove the back cover.

- BATTERY

## C CAUTION

Do not expose the old battery to fire or recharge it. Keep it at a place beyond the reach of children. If a child swallows it, consult a doctor immediately.

## - WATER RESISTANT

|  | Accidental contact with water, such as splashes and rain | Swimming and taking a shower | Skin diving | Scuba diving |
| :---: | :---: | :---: | :---: | :---: |
| No Indication | NO | NO | NO | NO |
| WATER RESISTANT | YES | NO | NO | NO |
| $\begin{gathered} \hline \text { WATER RE- } \\ \text { SISTANT } \\ (50 \mathrm{M} / 5 \mathrm{BAR}) \\ \hline \end{gathered}$ | YES | YES | NO | NO |
| $\begin{array}{\|c} \hline \text { WATER RE- } \\ \text { SISTANT } \\ \binom{\text { 100M/10 BAR }}{\text { or above }} \\ \hline \end{array}$ | YES | YES | YES | NO |

* If your watch is $200 \mathrm{M} / 20 \mathrm{BAR}, 100 \mathrm{M} / 10$ BAR or $50 \mathrm{M} / 5$ BAR water resistant, it is so indicated on the dial/case back.
- Do not operate the buttons when the watch is wet.
- If the watch is exposed to salt water, rinse it in fresh water and then wipe it thoroughly dry.
- Should you find any water or condensation inside the watch, immediately have it checked. Water can corrode electric parts inside the case.

## Caution:

Leather straps are not water resistant except so indicated, even if the watch head is water resistant.

## - ALLERGIC REACTION

Because the case and band touch the skin directly, it is important to clean them regularly. If not, shirt sleeves may be stained and those with delicate skin may develop a rash. Please wear the watch with some play to avoid any possible allergic reaction. If you develop a rash on your wrist, stop wearing and consult a physician.

## - MAGNETISM

Your watch will be adversely affected by strong magnetism. Keep it away from close contact with magnetic objects.

## - SHOCKS AND VIBRATIONS

Your watch may be worn for normal sports activities, but be careful not to drop it or hit it on hard surfaces.

## - TEMPERATURE

Your watch is preadjusted so that constant accuracy may be insured at normal temperature.

## - CLEANING

Use only a soft cloth and clean water for cleaning your watch. Never use chemicals, as the waterproof gasket will corrode.

## - SERVICE

When your LORUS watch requires repair or servicing, please see the enclosed WARRANTY/ GUARANTEE.
